REPORT OF SELECTMEN.

To the Town of Rutland:

FELLOW-CITIZENS: In consequence of the heavy indebtedness of the town, your Selectmen have endeavored to be as careful in their expenditures as possible during the past year, believing it to be more for the interest of the whole town to reduce the debt, than in any way to increase it for the present. For this reason, if for no other, we have refused to lay out any roads when much expense would be required in building them: but this reason does not satisfy all the tax payers. Two petitions, numerously signed, asking for roads from that part of the Village called Nebraska, one south, and the other west across the creek, not being laid by us, an appeal was taken to the County Court at its last Sept. term; a Committee was appointed, has been called out, and both roads laid. Should they be built the next year, it will require in our opinion, about \$8,000 00 for the bridge road, and \$2,000 00 for the other. This seems to us an unnecessary expense at the present time, more especially the bridge road, as upon a careful measurement we find the distance saved by that road to be but 17 rods from Wm. Y. Ripley's grist mill to the passenger depot from what it now is over the old road; and all travel south of the old Kelly farm, would find a gain of 15 rods by travelling the road by Roberts Moulthrop's, to reach the same depot, instead of the new bridge road.

There is a Court's Committee appointed on a petition for a road wanted from West street north, through the lands of E. A. Morse. They have not yet been out. We have lately received petitions to lay out roads, one in West Rutland, for a road west of the Rutland Marble Company, one in the Village north of the Episcopal Church, and one from the road running by John Cain's north to intersect the Greeno road near B. W. Pond's.

A Miss Whitney recovered from the town a bill of damages of \$2,100 00, at the last term of the County Court held here, in con-

sequence of injuries received by her, on the sidewalk in the Village some three years ago. This judgment was affirmed by the Supreme Court. We have paid \$400 on the execution to her attorney, the remainder will have to be provided for at your next annual meeting. There are several other cases where large damages are claimed against the town; most of them are in consequence of bad sidewalks.

A list of all orders drawn by us is herewith presented.

You have herewith a list of persons who have received assistance outside the Poor House, and the amount annexed to each name.

There has been admitted to the Poor House 30 different persons, and the averaged number through the year has been 18.

There are now in the Poor House 18—8 adults and 10 children.

You will see by the annexed list of persons, buried 3 in all outside the Poor House, and none at the farm. You will see that the amount of sickness has not been large.

Outside the Poor House I have rendered aid to seventy different persons. A large share of the number have families, while some have been only transient persons.

A considerable share of the expenses in this part of my charge has been caused by accident and sickness.

I have occasionally heard complaints about the management at the Poorhouse.

When the character of the inmates are taken into consideration, with few exceptions, they will not be taken as examples of moral purity; and if wrong exists at the Poor House it might easily be discovered by frequent visits there, on the part of our citizens, at

meal time or at any other hour when it shall best suit their convenience.

The coming and going of strangers with diseased bodies and not unfrequently covered with vermin, oftentimes does not furnish so very agreeable a task to the lady in charge of the establishment; and any discipline sufficiently rigid for such a place will not always be acceptable to the inmates, and a bathing tub will sometimes be resisted; and the house will not always appear as cleanly as a well regulated private dwelling.

But circumstances being considered, (our location for catching low and vile characters) we believe our Poor House will compare favorably with like institutions in the State.

I would suggest the propriety of making some repairs on the house, barn and shed, and also some improvements on the farm.

Annexed you have an invoice of the stock on farm, provisions, furniture &c.

The cost of maintaining the poor at the farm including the amount paid man in charge, repairs and all other

expenses deducting Physician's bill, is \$1116 82

Outside the Poor House including Physician's bill, is... 1421 25
